

# Bulldog<sup>®</sup> 1000 bar

The **enz golden jet<sup>®</sup>** Bulldog<sup>®</sup> 1000 bar rotating nozzle is specially designed for internal pipe cleaning up to 1000 bar. It is suitable for removing even the most stubborn deposits from the pipe walls. Thanks to its clever bearing system, the Bulldog is virtually leak-free, resulting in higher efficiency. In addition, the forward-facing cross-jet cuts out the material from the blocked pipe like a milling cutter.

## Applications

- Cleaning of heat exchangers in chemical and nuclear plants
- general industrial cleaning

Working pressure up to 1000 bar
